NE INSTRUCTION NO. (63-14)

SUBJECT : Automobile Air Conditioners

25X1 REFERENCE:

25X1 1. Automobile air conditioners in official  vehicles are controlled items and must receive Headquarters approval prior to acquisition. Once an automobile air conditioner has been justified and approved, it may be part of a replacement vehicle without rejustification.

2. Justification for an automobile air conditioner must include the following minimum standards and circumstances:

- 25X1 a) Installation necessary for health, comfort and efficient operation.

- c) Adequate maintenance and spare parts available locally.
- d) Daily temperature and humidity readings reach or exceed those listed below for any 60 days of a 90 consecutive day period:

25 YEAR RE-REVIEW
